9:30AM – 1:30PM

at

St. John Vianney School

420 Inman Ave. Colonia, NJ 07067

Maryann “Mar.” Harman is a music educator with a Bachelor’s Degree in Music and a Master’s in Education, with an emphasis in Early Childhood and is certified in Level I Orff. These degrees contribute to her ability to write songs that are musically and educationally sound for children as well as fun and easy to use for teachers and parents. She is the founder of the internationally-enjoyed Music with Mar. Brain Research Based program, Music with Mar. International (Beijing, China) and hosted BAM! Radio Music and Learning Channel.

Mar. will share brain research findings and give you ways to use them that will help in all areas of development while having fun. This workshop will be a stimulating lecture and hands-on interactive activities. This conference is the "How to" for brain research and learning skills; and involves participants in activities that get the brain involved in learning through the use of music in ways that are **FUN**ctional.

Session 1: Building Brains with Music

Repeatedly, research has shown that music is the only activity that utilizes the entire brain. Come get energized about what you do while becoming engaged with stimulating lecture and activities. Mar. will share brain research findings and give you ways to use them that will help in all areas of development while having fun. Make learning enjoyable for you and the children!

Session 2: Tune Them In and Turn Them

Get your classroom’s attention with lessons that will turn them on to learning. Magnets are memorable when you swing dance; and parts of speech can be done to a slide. Time will move quickly while you learn to tune into your class with these suggestions and turn them on for further learning.

This workshop is for Early Childhood Educators in grades K–3rd.

Register by March 10, 2024, and you will receive a free Maryann Harman CD.
